### *Part A, C and D Mechanical diagnosis and Therapy Courses Egypt-Cairo 10-21 Decemebr 2009*

The McKenzie Institute International is to offer its educational programme in Egypt- December 2009. The McKenzie Institute International is a Charitable Trust registered in New Zealand, and provides worldwide Courses of instruction in the McKenzie Method of Mechanical Diagnosis and Therapy®, as developed by Robin McKenzie. The Education Programme is a sequential series of courses leading to The McKenzie Institute International Diploma in Mechanical Diagnosis and Therapy. The Programme commencing with **Part A** "The Lumbar Spine" & **Part C** "The problem solving" for those who has completed part A and B Then **Part D** Advanced problem solving for those who has completed parts A,B and C . Each course is consisting of lectures and demonstrations, including the examination and treatment of real patients. The theoretical aspects and concepts of the McKenzie Method will be presented and discussed. The patient categories of the postural, dysfunction and derangement syndromes will be described in detail. Appropriate treatment plans will be outlined with emphasis on the use of patient Self-treatment procedures.

For those who applying for Part D, Certification exam date will be discussed with the whole group during the course.
