# 13 Success Years

2006 - 2019

Primephysio is a leading provider of professional development in UK ,Middle East and Africa since 2006.This leadership is evident from the excessive number of teaching activities we organised since 2006, the impact these activities have made on the physiotherapy profession in many countries in the middle east and Africa in particular and the strong link with many international teaching institutes and professional bodies.

# Dr. Mahmoud Saad

Founder-Primephysio UK.  
OMTA-Chairman

Mahmoud Established Primephysio in 2006 aiming to develop the physiotherapy profession in developing country through education, research projects and maximising the role of physiotherapy role in developing societies.

He worked for many years as senior lecturer physiotherapy at SHU in the UK ,teaching at the Musculoskeletal post graduate program, he works as clinical specialist with National Health Service and runs private clinics in Sheffield and London. He is a member of the Musculoskeletal association of chartered physiotherapists "the prestigious clinical membership in the field of manual therapy in the UK", fellow of the higher education academy-UK, certified McKenzie Therapist-UK and international manual therapy tutor.

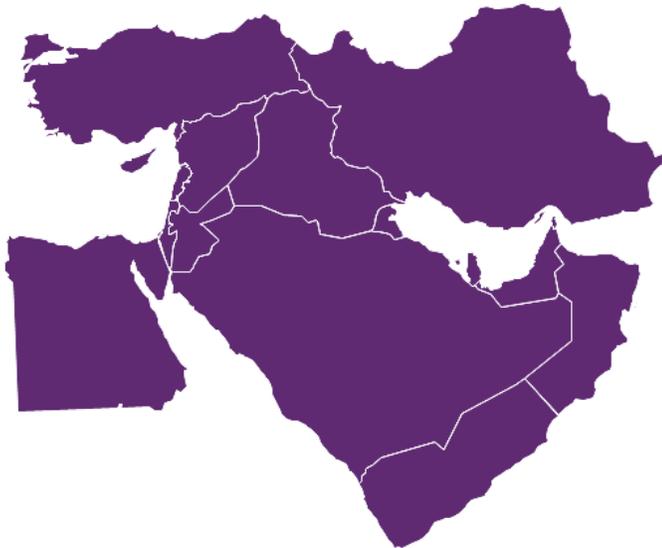

# Background & Development

Since 2006

# Primephysio is a registered training company in England and wales. Registrations number 7029865.

We proud ourselves as the first ever dedicated professional development training provider for physiotherapists in the Middle East and Africa. Our first official branch based in Egypt and trading under the name of Prime training and educational consultancy PTEC

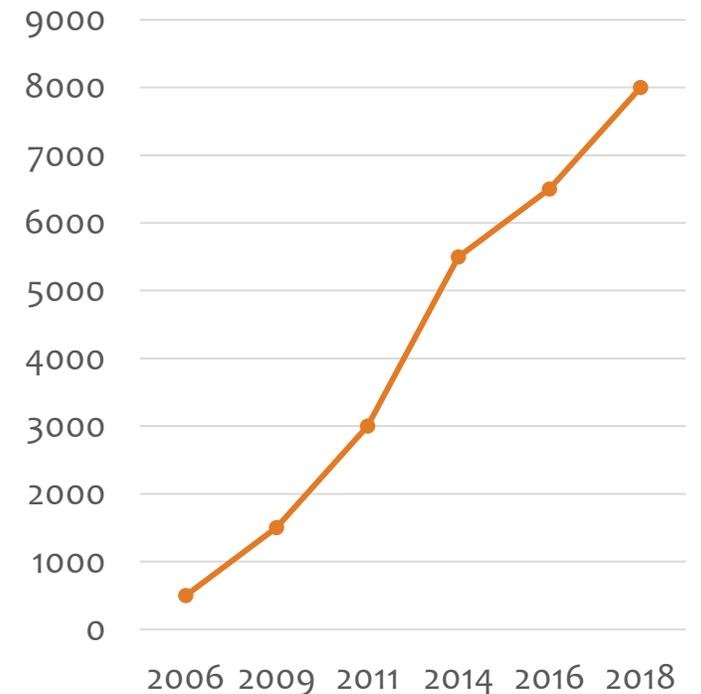

We organised 450 courses in the UK-Oman-Kuwait-Egypt-Jordan-Lebanon-Palestine-KSA- Qatar and Malta.

■ Courses was either fully or partially funded i.e. participants pay reduced fees or attend for free

12000 physiotherapists and medical doctors have attended our courses between 2006 to December 2018

# International Cooperation

Primephysio is a leading provider of professional development in Middle East and Africa since 2006. This leadership is evident from the number of workshops & courses organised by Primephysio, the impact it has made on physiotherapy profession in many countries in the Middle East and Africa in particular and the strong link with many international teaching institutes and professional bodies e.g.

- Al-Mana hospital - Saudi Arabia
- Malta Physiotherapy Society

# Our Projects

# PHYSIO-LINK

[www.physio-link.org](http://www.physio-link.org)

---

## Research

This project is fully sponsored by Primephysio UK, this ongoing project aims to provide an open knowledge resource to physiotherapists worldwide to get a free access to the latest evidence based professional updates, with more than 250 research summaries related to the Musculoskeletal, neuro-rehabilitation, Cardio-vascular and pain management specialties.

---

## Development

Measuring outcomes is an important component of physical therapists practice. They are important in direct management of individual patient care and for the opportunity they provide the profession in collectively comparing care and determining effectiveness. A wide range of clinical outcome measures are accessible and free to print through physio-link website.

---

## Networking

Physical Therapy Rehabilitation Conferences provides an international platform to explore the newer methods of rehabilitation and management. All the professional news related to the conferences and congresses presented online and updated regularly

## Orthopaedic Manual Therapy Academy

[www.omtae.org](http://www.omtae.org)

OMTA is a subgroup of Primephysio UK Training, primephysio established in 2006. In a world of building walls Brexit, social media and social isolation, our aim is to gather physiotherapists from around the world to practice their role as movement ambassadors. We provide a simple approach of Orthopaedic Manual therapy education that based on the fact that every successful management must include an in-depth analysis that produces psychological, social and physical problems, and use what we call the golden triangle of management where hands-on techniques, exercise prescription and education strategies are logically used to provide long treatment impact.

# OMTA vision

- Our aim is to deliver our philosophy of OMT practice to double this number by 2022. Musculoskeletal physiotherapy practice is strongly linked to communities' quality of life, our aim to help physiotherapists and health professionals interested with MSK problems to promote physical activity among our people to prevent as well as treat musculoskeletal symptoms.
- Knowledge sharing is a passion, therefore all our tutors are happily travelling all over the world to present in conferences, provide short workshops, full training programs to wherever we get invited, If you are interested to bring our activities to your country please [get in touch](#).

To be a leader in the field of continuous professional development for physiotherapists by providing enhanced services, relationship and quality assurance.

## Strategy Purpose

## Vision

To provide quality educational services for physiotherapists and health professionals worldwide.

We offer educational opportunities to Physiotherapists throughout the world.

We aim to encourage international collaboration to empower the global Physiotherapy profession.

We aim to build long term relationships with our target audience, teaching institutes and professional bodies worldwide and ensure maximum mutual benefit to be delivered to all parties.

Enhance the role of physiotherapy in the communities

## Mission Statement

## Core Values

We believe in treating our partners, physio colleagues and our teaching team with respect and faith.

We grow through creativity, invention and innovation.

We integrate honesty and work ethics into all aspects of our business functioning.

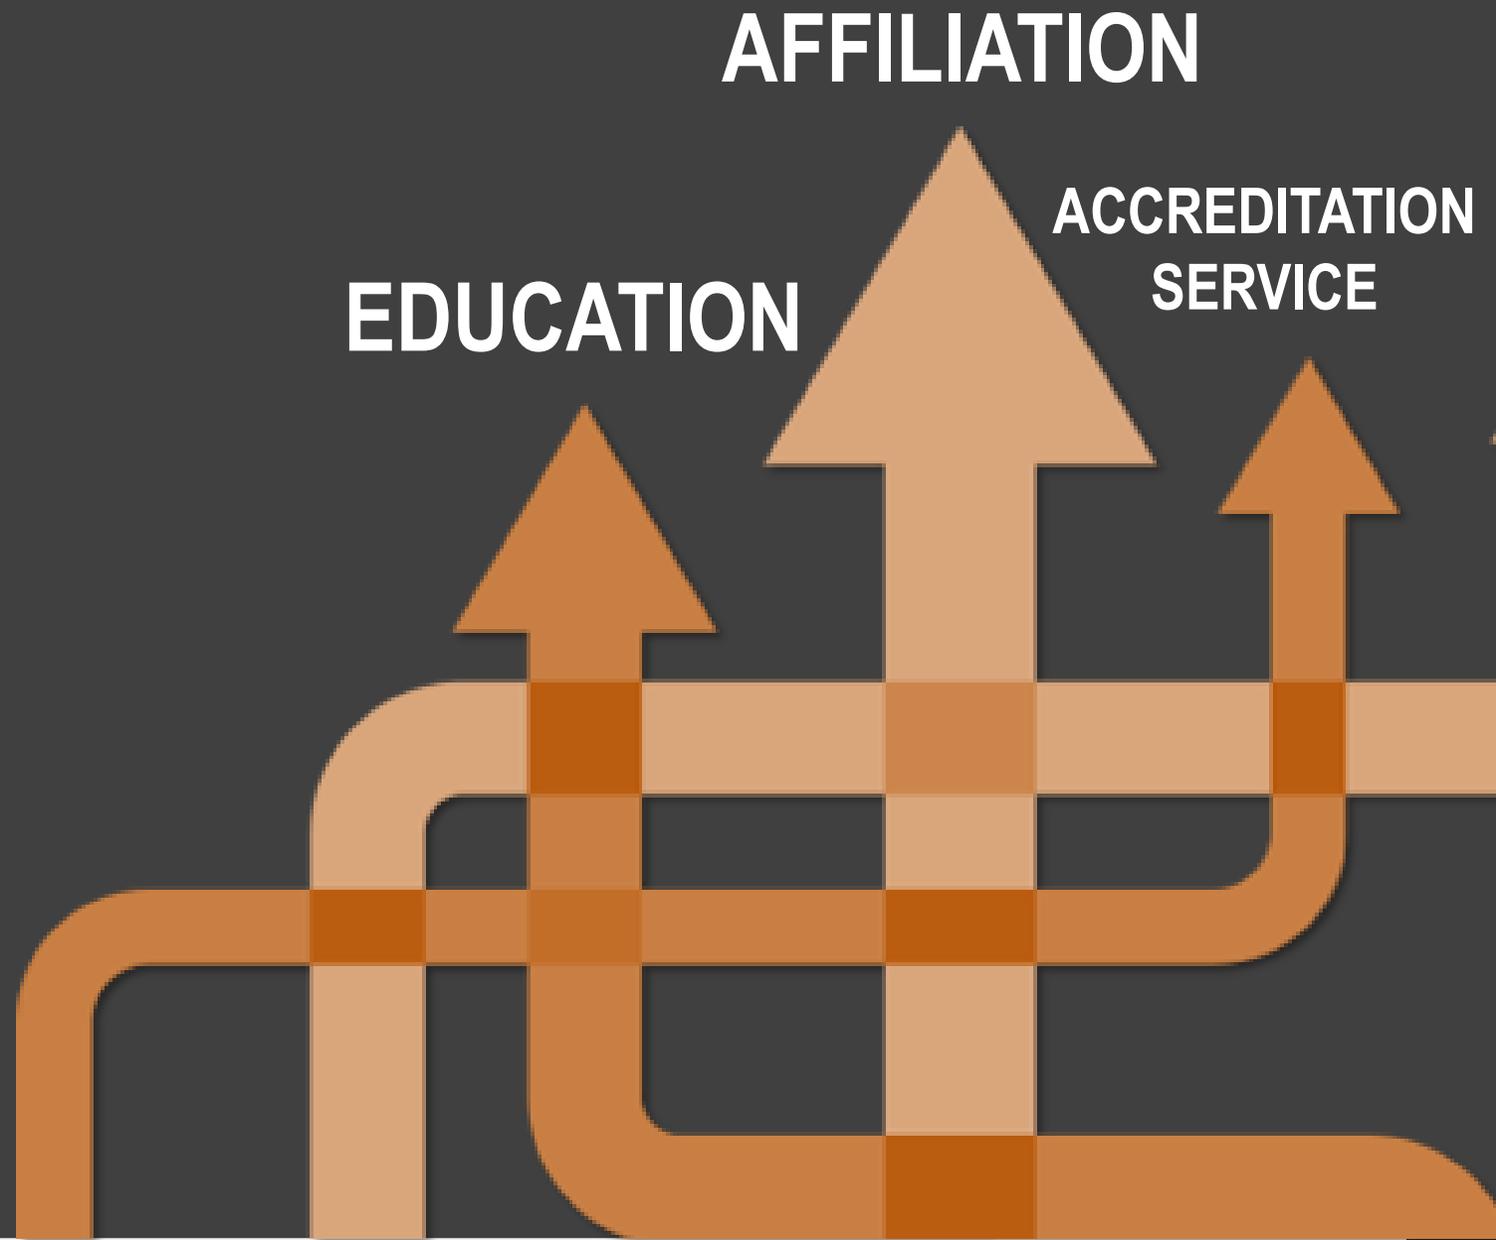

# Our Goals

---

- ✓ Global expansion in the field of education and professional development for physiotherapists and health professionals.
- ✓ Increase the assets and investments of the organisation to support the development of services.
- ✓ To build good reputation in the field of education and professional development.
- ✓ To help enthusiastic colleagues to organize high standard Physiotherapy courses in their countries/cities with affordable cost.
- ✓ To insure that our colleagues in the developing countries can attend continuous professional development courses, crossing the barrier of the lack of available courses in their country or due to high cost of attending courses abroad.

# Scope of Work

## EDUCATION:

- ❑ We run teaching activities worldwide with emphasis on quality.
- ❑ Quality education for physiotherapists means training activities provided by experienced tutors with strong clinical and academic background.
- ❑ We provide students and clinicians with a wide variety of free access learning activities e.g. monthly journal, research summaries, free online courses.

## AFFILIATION:

- ❑ We affiliate with other teaching and clinical organizations to promote physiotherapy training through partnership, consultation and planning.
- ❑ We realize how it might be difficult for most of our colleagues in the developing countries to attend continuous professional development activities; due to lack of available courses in their country or financial burdens encountered with attending courses abroad.
- ❑ We help enthusiastic colleagues to organize high standard Physiotherapy courses in their countries/cities in affordable cost.

# ACCREDITATION SERVICES:

- ❑ Physiotherapy clinicians have the teaching ability and clinical skill, they teach their staff or colleagues for many years; however they need to ensure that what they teach is at high academic and clinical standards.
- ❑ At Primephysio we offer accreditation service, our teaching and learning quality team will revise and approve curriculums for short courses or long teaching programs. Once the course contents and structure is approved it will be certified by Primephysio.

# **We proud ourselves as non for profit organization**

course fees go straight to cover organization cost, airfare and accommodation cost of tutors and reasonable tutor honorarium/expenses. Any marginal profit goes toward organization of other free or funded activities.

# Cooperate with Primephysio UK and share physiotherapy knowledge to everyone, everywhere:

## Invest and become a Endorsing Organisation

Clinics and professional organisations are invited to invest in their staff. Join our endorsing members and get a discounted rate on our activities.

## Accreditation services

At Primephysio UK we offer accreditation service for external courses, our teaching and learning quality team will revise and approve curriculums for short courses or long teaching programs.

## Host our activities

Clinics, hospitals, Universities or professional bodies, who would like host our activities, kindly fill in this form.

PRIMEPHYSIO

**Thank You**
