

All about the Knee: Clinical Day Workshop

Location: Jeddah-KSA

Date: Saturday. 11 March 2023

Manual Therapy, Exercise Therapy, Dry Needling, Taping AND MORE!

Tutors:

Dr. Hayat Mostafa

MSc, CMT, CDNP, CMP, KCMT

- Masters Cardiopulmonary Physiotherapy, Cairo University Certified OMTA Manual Therapist
- Certified Dry Needling Practitioner
- Certified Kinetic Control Movement Therapist
- Maitland Trained Therapist, IMTA, Switzerland

In this HIGHLY PRACTICAL one-day workshop:

Assessment and treatment of knee-related mechanical problems include:

- Patellofemoral disorders
- Knee derangement
- Meniscal problems

These will be discussed via a case-study-based practical approach.

A contemporary package of treatment strategies will be demonstrated wrapped with clinical reasoning followed by one-on-one supervised practical session.

The treatment package will include effective mobilization, dry needling, and taping strategies.

The role of exercise therapy will be discussed and applied as a key element of modern musculoskeletal physiotherapy practice.
